

NATIONWIDE CONNECTIVITY

MAKING SURE YOUR TEAM REMAINS CONNECTED EVERYWHERE THEY GO

WE'VE GOT THE TOTAL PACKAGE ON NATIONWIDE CONNECTIVITY

ACCESS TO ALL MAJOR US CARRIERS

Relay now has partnerships with all three major carrier networks in the US, which gives us access to the best cellular network in your area.

AUTOMATIC NETWORK SWITCHING

Relay will switch to the cellular carrier that gives you the best coverage in your area – no matter where you are. Perfect for large teams, multiple properties and out of city/state trips.

SIMULTANEOUS CELL+WIFI COVERAGE

Messages are now sent over both the cellular network and WiFi at the same time and then stitched together to create a higher quality and more resilient voice stream. Teams experience improved message delivery and better audio quality when communicating.

COVERING 99% OF ALL AMERICANS

RELAY DELIVERS A LAYERED, REDUNDANT CONNECTIVITY FRAMEWORK THAT IS DESIGNED TO WORK WELL EVEN IN CHALLENGING NETWORK CONDITIONS (EG. SPOTTY WIFI). OUR WEB DASHBOARD ALSO ALLOWS USERS TO VIEW THE STATUS OF CONNECTIVITY IN REAL-TIME.
